Gov. Brown has named Dec. 1 as a day for the election of George Armstrong, the Spencer county murderer.

The formal closing ceremonies of the World's Fair today have been declared off account of Mayor Harrison's death.

Oscar D. Wetherill, City Comptroller, becomes acting Mayor to succeed Mayor Harrison. He is sixty years old and a Republican.

Since Hon. Beaumont Clark, the Democratic candidate for Bowling Green, is sure to be elected to the Legislature, will he kindly appoint a curious public when he gets that frost name of his?

The Silver men having decided to let the repeal bill come to a vote, the formal report of the Sherman law was yesterday postponed. Several of the amendments were heard last week, that for free coinage by 37 to 55 votes.

The Lady Magicians of the World's Fair season featured Secretary Charles Little spent upon the occasion of his visit to Chicago. The board sent the bill, about \$600, to Congress and Congress refused to pay it, whereupon Secretary Little went down into his own pocket and paid the bill. The magician and cup of the bill he consumed was about the dearest lunch any statesman ever consumed. The reception committee went out of money, and the magician to adjust the matter with the victim.

The Glasgow Times is doing the finest campaign work of any paper in Kentucky. Jim Richardson is making a bundle to "William Henry Jones," the Republican candidate for the Senate, whom he charges with being a member of the Blue Guard. He proceeds to prove the charge by a statement from the Auditor's office that Jones drew \$25,000 from the treasury during the last days of the long parliament. If the Democrats fail to elect their candidate, Hon. C. Duff, it will be on the faith of the Glasgow Times.

We read often of men being swayed by the eloquence of one orator, without letting the mind dwell upon the fact that such things are rarely done in these days and times. An example is reported from Birmingham that shows how the eloquent appeal of one man can move a crowd. A young woman at Cuba, seated in the front row, was so moved by a lecture John Cole, a negro, assaulted her and she was taken to the hospital. She was arrested, and charged with the charge of a mob, who started to the woods to hang him. The rope was placed around his neck, and he was hanged, when one of the mob mounted a stump and for ten minutes made a fervent appeal for law and order. He proposed a vote and, although the crowd had previously been of one mind for death, the vote stood 37 to 2 in favor of the law, and a Livingston.

The November issue of Romance marks the beginning of the twelfth volume, and the magazine celebrates the occasion by an enlargement of one-fifth in its size, making it by far the largest periodical devoted to stories in the world. The sign of the property will be noted with satisfaction by its many admirers, who will note the increase in quantity attended by that corresponding improvement in quality which marks the success of this interesting magazine. The number opens with a Thanksgiving story by Mary E. Wilkins in her most characteristic vein; there is also a second Thanksgiving story in an entirely different style by L. Ketchum, which another example of the "Indian Summer" series by Miss Clark. Among the many other contributors are Alphonse Daudet, Julia Dittie Young, Anne Franklin Fitch, Eliza Lyman Linton, Julian Hawthorne, Albert Hardy and Guy de Maupassant. Immediately following the thrilling war stories, and absorbing narratives of love, mystery, pathos and adventure, proceed to make about probably the most attractive number of a story magazine ever printed. Romance is issued by Romance Publishing Company, Clifton Hall, New York, New York, at 25 cents a copy, or for a year, and a sample copy of a recent issue will be sent for 10 cents.

Words With the Bark On.

The present campaign in Christian county has been different in some respects from that of previous years. The Republican party, which was not repudiated at the polls last year, has been successful in getting the party together in this county and the fighters who control it are making a desperate effort to crack the Republican lock over the colored voters and force them to elect a ticket opposed to them by the Hopkinsville party. The party is dead party, but it is much overdone here, but the fall is still warring here in Christian county. It is only within the last few days that the party have succeeded in enlisting the services of a corps of workers. The houses have held their night meetings, they have made incendiary speeches, they have circulated false and malicious reports on Prof. Frogge, they have tried by every means known to the corrupt and unscrupulous politician to close up the threatened gap in their line, but the fact remains that the most intelligent colored voters are still for Prof. Frogge, and cannot be enticed or driven from his position by a majority of 600 or 800, the Republicans are in effect a corps of defeat for their whole ticket, and without count on the colored voters of this county have begun to think since they behold the wholesale desertion of the Republican vote in this county, that they are in a bad way. They say it repudiated by leading bankers, merchants and business men, and they were put to thinking and are still so thinking. They say the race of life-long Republicanism is being broken up in Christian county, and they are not sure that they are not right. Mayor Carter H. Harrison, killed.

Mayor Carter H. Harrison, Mayor of Chicago, was assassinated at his home in Chicago at 7:25 o'clock Saturday night by a crank named Eugene Patrick Prendergast, a newspaper carrier in the name of the Times which was owned by a newspaper. Prendergast gave as a reason that the Mayor had promised a position to the Mayor, and that he had been killed for it. The murder was a headless fellow about 24 years old, who had killed Mr. Harrison to the door and shot him three times. Prendergast then went to a police station and gave himself up. Mr. Harrison expired in fifteen minutes after he was shot. He was wearing his fifth term as Mayor and made a public speech to the Mayor he killed. Mr. Harrison was born in 1825 and was married Nov. 7, to Miss Annie Howard, of New Orleans, who was in his house at the time. Fatal Shooting Affair.

Alex Bell and Dave Hughes, two Altonville negroes, engaged in a row last Thursday night and Hughes was killed in the breast, the wound being pronounced fatal. Bell was immediately arrested and is now in jail at Elton. The trouble between the two negroes grew out of some trivial matter and it appears that there was no provocation whatever for committing a crime, which may prove to be that of murder.

A Heavy Penalty.

Today is the last day for paying State and County taxes without the 10 per cent penalty. To-morrow the penalty attaches and will have to be paid without exception. About two-thirds of the taxes have been paid prior to the deadline—the greater portion of it in the past few days. This leaves about \$25,000 unpaid, the penalty on which will be \$1,500. Under the new Constitution all Sheriff will have to settle with the State Auditor on or before Dec. 1.

Mule Thief Captured.

Willie Rogers, col., was arrested near Russellville Saturday night charged with stealing a mule from R. O. Hopkins, of the Pendergast neighborhood Thursday. He accompanied his fine stock to Nashville and will remain until after the close.

Tom Johnson Meets From.

Thomas Johnson, the contractor for the stone work on the new hotel, who so mysteriously disappeared from this city Oct. 1st, was seen in a hotel in London. From here he went to Evansville, where he worked a few days. He came to Evansville and from that place he went further up the Ohio. Why he left this city so unceremoniously has not been explained, and it is quite likely never will be.

The books and paper of value to the company were in a large fire proof safe and were not damaged. The company of the fire is unknown, but it is thought to have been started by an incendiary. Two clerks who were in the building at the time, building narrowly escaped cremation.

Miss Annie Wadlington, a young lady from Trigg county, was robbed of her squirrel cakes and contents valued about \$20 in cash and some valuable jewelry. She was in possession of her wallet, when passing Crofton but when she reached this city her wallet was missing. The train was crowded with passengers and a portion of the loss was covered by a strange woman, who had disappeared when this city was reached. Miss Wadlington is of the opinion that this woman picked her pocket and then changing her coat went on her way rejoicing. Of course nothing could be done about the matter and the chances are she will never recover her valuables.

He says also that the end of November, look for higher temperature and secondary storm movements. Snow and sleet will result to the north on or about those dates. A severe cold wave will be felt over the entire country, lasting up to the 15th of the month. In addition to the city are a regular train in full operation of the sunbeam. Criticism of the play has been very generous. In New York City, when it was lately produced, the press pronounced it a masterpiece of the art of the stage, and well-constructed melodrama with several very strong mechanical effects that are distinct and effective, and bearing all the indications of being a carefully planned drama of large proportions.
